

ROOFTOP GREASE MANAGEMENT

Without proper containment, grease and oil from your kitchen exhaust fans can leak onto your roof. This will breakdown your roof membrane, potentially get washed down the drains into the sewer system, and could even start a fire.

Program Benefits:

- Save your roof from premature deterioration, leaks and costly repairs
- Reduce the risk of a fire and environmental pollution
- Create safer working conditions for anyone on the roof
- Visit clearenvironmental.ca for product detail
